Project

TITLE : LOAD BALANCING IN CONTENT DELIVERY NETWORK
ENVIRONMENT : JAVA
DOMAIN : Networking
Role : The challenging issue of defining and implementing an effective law for load balancing in Content Delivery Networks (CDNs). This result is then leveraged in order to devise a novel distributed and time-continuous algorithm for load balancing, which is also reformulated in a time-discrete version.

Personal Profile

Date of birth : 04-02-1993
Gender : Male
Civil status : Single
Nationality : Indian
Language known : English, Tamil, Urdu, Hindi
Address for communication : S/o Ameenudeen,
Abubaker Al Siddque Road
Near United Hyper Market
Deira Dubai
