

# GOLAH-EBUE EJIROGHENE

Pipe Fitter and Fabricator with experience in Plumbing and

Security..

D.O.B : 25-sept-1985

Nationality: Nigeria

Location: Dubai, United Arab Emirates.

Mobile: +971508806802

## Profile:

I am a qualified and registered pipe fitter/ fabricator with over three years of hands-on experience in carbon steel fitting and fabrication. I have also worked in other fields of endeavor such as time keeping, stores and materials management, document control, under water recovery, and as a general maintenance/ handyman. I am dedicated to doing my best on task assignment to me and have a very good sense of initiative and innovation. I also have great interpersonal relationship with people I work with and am ever willing to go the extra mile to ensure the success of any assignments given to me.

## OBJECTIVE

Applying my experience to the tasks assigned to me in order to improve productivity, safety standard and overall quality of service, while learning and improving my own skill set to better serve the firm in any capacity required of me.

## EDUCATION

1. Federal University of Technology Akure, Nigeria.  
Course of study: Applied Geology (2006-2011)
2. Delta Steel Technical High School, Warri Nigeria.  
Technical education.(1996-2004)

## LANGUAGES

English: Excellent reading, writing and speaking.

## **SPECIALIZED SKILLS**

- Oxygen/acetylene carbon steel cutting.
- Continuous Process Improvement.
- Document control with proficiency in MS word, MS excel and MS presentation.
- Natural proficiency in the use of many hand held power tools.
- Good organizational ability and excellent store keeper.
- Adequate handy man skills.
- Expert swimmer and diver.
- Adequate first aid knowledge.
- Qualified driver.

## **PROFESSIONAL EXPERIENCE**

### **1. SECURITY OFFICER AT OVOH NIG LTD (MAY 2011- MARCH 2013)**

#### **ROLE DETAILS:**

- Manned the company security office.
- Recorded entry and exit of visitors and employees
- Patrolled the company property
- Recorded and reported suspicious movements and occurrences

#### **KEY ACHIEVEMENTS**

- Thwarted attempted theft of company materials on more than one occasion.
- Increased security with innovative ideas on how to make the security of the company and its assets ironclad
- Introduced a new method of visitor Identification and movement control with badges carrying different color codes for different areas.

#### **OTHER ACHIEVEMENTS**

- Improved my level of expertise at keeping the company secure by researching on new methods and security procedures during my personal time.

### **2. RIGGER AT SAMKAROS ENGINEERING NIGERIA LTD. MAY 2013 TO DECEMBER 2013.**

#### **ROLE DETAILS:**

Ensured safe hoisting and transfer of work pieces and construction materials within the work site.

#### **KEY ACHIEVEMENTS**

- Achieved zero loss time incidents.
- Identified safer and more efficient methods of hoisting and transferring heavy work materials leading to less cases of near misses and accidents on the work site.
- Increased productivity with innovative ideas on how to move cumbersome loads without extra cost to the company.

## 2. PIPE FITTER/ FABRICATOR AT SAMKAROS ENGINEERING NIGERIA LTD. JANUARY 2014 TO NOVEMBER 2016

### ROLE DETAILS

Cutting, bending and fitting of pipe components for the construction of a 320 kilometers gas pipeline from Escravos to Lagos, Nigeria. (ELP 36" EXPANSION LINE).

### KEY ACHIEVEMENTS

- Assisted with the timely delivery of the project within the estimated time frame thereby avoiding extra cost that delay would have incurred.
- Participated in the fabrication of pigging station 3 from design phase to installation. A part of the project that usually utilized prefabricated work pieces.
- Assisted in finding solutions to work problems that would have otherwise created delay and large extra cost to the company.
- Erector/ Mechanical Fitter at SEPLAT Nigeria PLC. June 2016.
- Role details
- Participated in the assembling of two Electrostatic Heater Treatment tanks as part of SEPLAT's flow station expansion project at Sapele, Delta state Nigeria.

### KEY ACHIEVEMENTS

I was made team leader for my tank installation crew and we finished our installation process ahead of the other team.

Devised a solution for drilling the electrodes hangers when the supplied drill failed operation thereby saving the company the time and cost of repurchasing a new magnetic drill.

### OTHER ACHIEVEMENT

- Developed a new system for lifting work pieces at a predetermined angle thereby eliminating the need to use more than two cranes for certain fittings and saving time and cost for the company
- Improved my level of expertise at multitasking by doubling as a handyman, document controller and store keeper during the course of my employment at samkaros Engineering Ltd.

### OTHER INTERESTS

Self-improvement, reading, creating synergy within my working environment.
