Vision

We have immense pleasure in introducing Global Travels & Consultancy Services Overseas manpower recruiting consultation division from India as rapidly growing and reaching new heights day by day.

Mission

Its main object is to secure suitable overseas placements for India professionals, skilled workers and others, who are desirous of securing jobs in various Gulf countries

Our Work

Our team emphasizes on bridging the gap between clients' expectations and performance of Indian professionals. In case of technical placements for overseas openings, we conduct rigorous technical examinations using our state-of-the-art Trade Testing Center. We also ensure to conduct interviews and other screening tests using skilled consultants and subject matter experts as part of panel of interviewers. Thus, we help both candidates and client.
