

DUA AHMED SAEED FADUL

Deira City Centre, Dubai, united Arab Emirates
+971 566069947 | duaa.dha2021@gmail.com

Objective

To enhance my professional skills in medical laboratory science , capabilities and knowledge in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

Experience

- **Khartoum North teaching hospital** 2.2019 - 5.2021
medical laboratory technologist /phlebotomist
 - Identifying patients and their personal information by reviewing their identity documents.
 - Assessing patient needs, reviewing patient history, and determining the reason(s) for drawing blood.
 - Selecting gauge needles and preparing veins or fingers for blood drawing.
 - Extracting blood from patients through venipuncture or fingersticks.
 - Analyzing blood specimens using the correct testing equipment.
 - Keeping and maintaining records of patient names, volume of blood drawn, and diagnostic findings.
 - Cleaning, maintaining, and calibrating laboratory equipment used in the drawing and testing of blood specimens.
 - Ordering laboratory supplies, as needed.
 - Experience in electrical and nonelectrical laboratory equipment
 - Ability to maintain quality, safety, and/or infection control standards.
 - Experience in Heamatolgy, blood bank, clinical chemistry, hormones, routine and PCR for covid19.
 - Follows hospital policy procedure for disposable of sharps and other hazardous waste.
- **On board Clinic (dubai)** 2.2022 - 4.2022
Phlebotomy (covid specimen collection)
 - Receives the order and specimens
 - Ability to prepare and process laboratory samples using established protocols.
 - Working knowledge in database systems
 - Ability to maintain quality, safety, and/or infection control standards.

Education

- **Nile university** 2018
Bachelor degree in medical laboratory science (haematology and immunoheamatology)

Skills

- Hard Working . Fast Learning . Self Motivated . Time management . Critical thinking . Good communication skills .Good communication skills. Customer services . Working knowledge of computer science and database systems. . Quality control standards . Statistical analysis.

License

- DHA eligibility latter
- Sudanese national Council for medical and health professions.

- Dataflow completed

Courses

- Six-sigma yellow belt.
- Nasal and oral swab specimen collection course for covid19 from dubai health authority
- for covid19 from dubai health authority Infection prevention and control in COVID19 pandemic.
- Hospital infection control.
- The polymerase chain reaction (PCR) in COVID19 Era. (Workshop Contents:- -History of PCR -The basic concept of PCR -Basic PCR reagents and materials. -The sequential steps of PCR -One-step (monoplex) PCR product electrophoresis, detection and size determination -Setting up a PCR experiment Standard variants of PCR - Multiplex PCR -Nested PCR -Real-time quantitative PCR (PCR) -Reverse transcriptase PCR (RT-PCR) -Combined RT- PCR/qPCR -Advantages and imitations of PCR -Common applications of PCR).
- Challenges in haematology quality control.

Personal Details

- Date of Birth : 22/03 /1997
- Nationality : Sudanese
- : Medical laboratory technologist /phlebotomist /medical laboratory technician
